RESIDENTIAL
WATER, SEWER AND TRASH CONTRACT FOR THE
CITY OF FARMERSVILLE
909 W. Visalia Rd.
Farmersville, CA 93223

The undersigned, being the owner or occupant of land located within the City of Farmersville or its extended service area, hereby makes application to connect to Water and Sewer utilities and to utilize Trash Services provided by the City agrees to the following conditions:

1. To activate services from the City, for water, sewer and trash services, to the extent indicated above, I hereby tender a total of \$92.50 as a deposit and guarantee that my bills will be paid monthly. Of the deposit, \$80.00 will be refundable when either: a) services are discontinued and all charges and bills are paid or b) if payments are made on time every month for one year and will be applied to the bill.
2. Pay applicable water, sewer and trash service fees from the time service is made available by the City. Any duly enacted changes made in the minimum monthly water and sewer charge and the trash fee rate schedule by the City Council shall become a part of this agreement as though fully set out herein.
3. Bills not paid by the 15th of each month shall be subject to a five dollar (\$5.00) penalty charge. Failure to pay a bill by the date shown on the statement from the City shall result in discontinuance of service and a thirty-five dollar (\$35.00) account reinstatement charge. Capacity charges may apply if voluntary or involuntary abandonment occurs.
4. The water and sewer supplied by the City shall be for the sole use of one parcel for which the undersigned shall be responsible. Each service shall supply water to only one residence or business establishment located on land within the City limits of Farmersville (or its extended service area, if applicable.)
5. After water and sewer service is made available the same is discontinued or disconnected for any purpose, in accordance to the Ordinance of the City, reconnection shall be upon the conditions set out in the Ordinance of the City.
6. The undersigned agrees that he/she/it will make no physical damage to the water and sewer system or the meter service of the City. Representatives of the City may at any reasonable time come on the premises or where the water or sewer are being used for the purpose of making a safety or periodic maintenance inspection or to enforce this agreement or any applicable ordinance pertaining to the services provided by the City. Violation of this provision shall be grounds for disconnection of service.
7. The laws of the State of California, the ordinances of the City, as presently existing, and as may be enacted or amended from time to time, are made a part of this agreement as though fully set out herein.
8. The applicant agrees, if applicant is the owner of the premises to be served, to furnish the City with all written easements necessary or convenient to the City for continued service.

I, the undersigned do agree upon the above mentioned terms.

WATER SERVICE AGREEMENT

- I. **PURPOSE** – The City of Farmersville desires to protect the local drinking water supply from contamination and pollution which could result from improper private water distribution systems. The purpose of this service agreement is to notify and require compliance each customer of plumbing restrictions, which are in place to provide this protection. The City enforces these restrictions to promote the public health and welfare. Each customer must sign this agreement before the City of Farmersville will begin service. In addition, when service to an existing connection is suspended or terminated, the City will not re-establish service unless it has a newly signed copy of this agreement.

- II. **RESERTICTIONS** – The following unacceptable practices are prohibited by state and/or local regulations:
 - a. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination will be isolated from the public water system by an air gap or a backflow prevention device.
 - b. No cross-connection between the public drinking water supply and a private water system is permitted. The potential threats to the public drinking water supply must be eliminated on the customer’s side of the service connection by the installation of an air-gap or a reduced pressure zone backflow prevention device.
 - c. No connection which causes or allows water to be returned to the public drinking water supply is permitted.
 - d. No pipe or pipe fitting which contains more than 8.0% lead may be used for installation or repair of plumbing at any connection that provides water for human consumption or use.
 - e. No solder or flux which contains more than 0.2% lead can be used for installation or repair of plumbing at any connection which provides water for human consumption or use.

- III. **SERVICE AGREEMENT** – The following are the terms of the service agreement between the City of Farmersville and the Customer.
 - a. The City of Farmersville will maintain a copy of this agreement as long as the customer and/or the premises is connected to the water system and are subject to the requirements hereof.
 - b. The Customer shall allow her/his/its property to be inspected for possible cross-connections and other potential contamination hazards. These inspections shall be conducted by the City of Farmersville or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the Customers plumbing system or the Cities water distribution system. These inspections shall be conducted during normal City of Farmersville business hours.
 - c. The City of Farmersville must notify the Customer in writing of any cross-connections or other potential contamination hazard which has been identified during the initial inspection or any periodic or follow-up inspection.
 - d. The Customer must immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on the premises.
 - e. The Customer shall, at her/his/its expense, properly install, test, and maintain a backflow prevention device as required by the City of Farmersville. Copies of all testing maintenance records must be provided to the City of Farmersville.
 - f. The customer agrees to timely pay for all water services supplied to or for the premises by the City, at the rate(s) now fixed or hereafter fixed by the City as bills are issued to the customer. Water service charges shall be measured by the meter and billed accordingly until notice is given by the Customer to the City at its office in writing or by electronic facsimile to discontinue service.
 - g. The Customer agrees to keep areas adjacent to and above the meter(s) clean from dirt, debris and obstructions; to make meter(s) safely accessible for reading and maintenance at all times; and to restrain dogs and any other animals which might interfere with reading the meter.
 - h. The customer agrees to observe all water conservation measures of the City and the State of California.
 - i. The Customer hereby expressly agrees to and is made subject to the terms of this agreement and all of the ordinances, resolutions, terms and provisions of the City of Farmersville and the statutes, regulations and other requirements imposed on the City and/or consumers by the State of California.

- IV. **ENFORCEMENT** – If the Customer fails to comply with the terms of this water service agreement, the City of Farmersville shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expense associated with the enforcement of this agreement shall be billed to and must promptly be paid by the customer. Title to and ownership of the water meter and the City’s water distribution system are vested in and remain with the City. Customer must refrain from, and must prevent others from tampering with or in any way modifying or manipulating any water meter or seal thereon and failure to comply with this requirement shall result in termination of water service. The Customer shall be responsible for all maintenance and the proper operation of the lateral pipeline conveying water from the City’s meter to the Customers dwelling or other building and/or water fixtures on the Customer’s premises.
